Playball is an early childhood programme which helps develop the fundamental building blocks of sport, agility balance and coordination, as well as the three key elements of physical fitness – endurance, strength and flexibility. Most importantly, Playball is FUN, and engages the child's imagination!

The aims of Playball are two-fold:

- We believe that creating a positive attitude towards sport and physical activity at an early age is the key to lifelong participation.
- We also believe that important educational, social and emotional developments taking place in children between the ages of 3 – 7 can be aided, enhanced, and strengthened through physical activity and play. Playball is returning to Victoria Ave School, and will be beginning the 3rd week of this term, 2010.
